

Who will shape
the new economy?

We are.

SentaTrust is building the trust infrastructure for a business world
powered by blockchain and AI.

Built in Dubai. Global by design.

DUBAI • UNITED ARAB EMIRATES

Build the future with us.

SentaTrust is inviting strategic investors to join the next stage of expansion. Help us build the team, reach, and partnerships needed to scale into a global market leader.

Strategic opportunity. Be a part of it.

The way business works is changing.

Business is moving from paper and traditional processes into software and the blockchain.

Money, ownership, payments, and business activities are moving into systems where code sets the rules and executes the outcome.

The world will need a clear standard for deciding what can be trusted.

AI will not only build
the new economy.

It will challenge it.

AI can scan and exploit code at a speed and scale no human team can match.

As money, ownership, and business move through blockchain systems, those systems must be tested and hardened before people rely on them.

Trust starts with proof.

Who decides whether the system is solid?

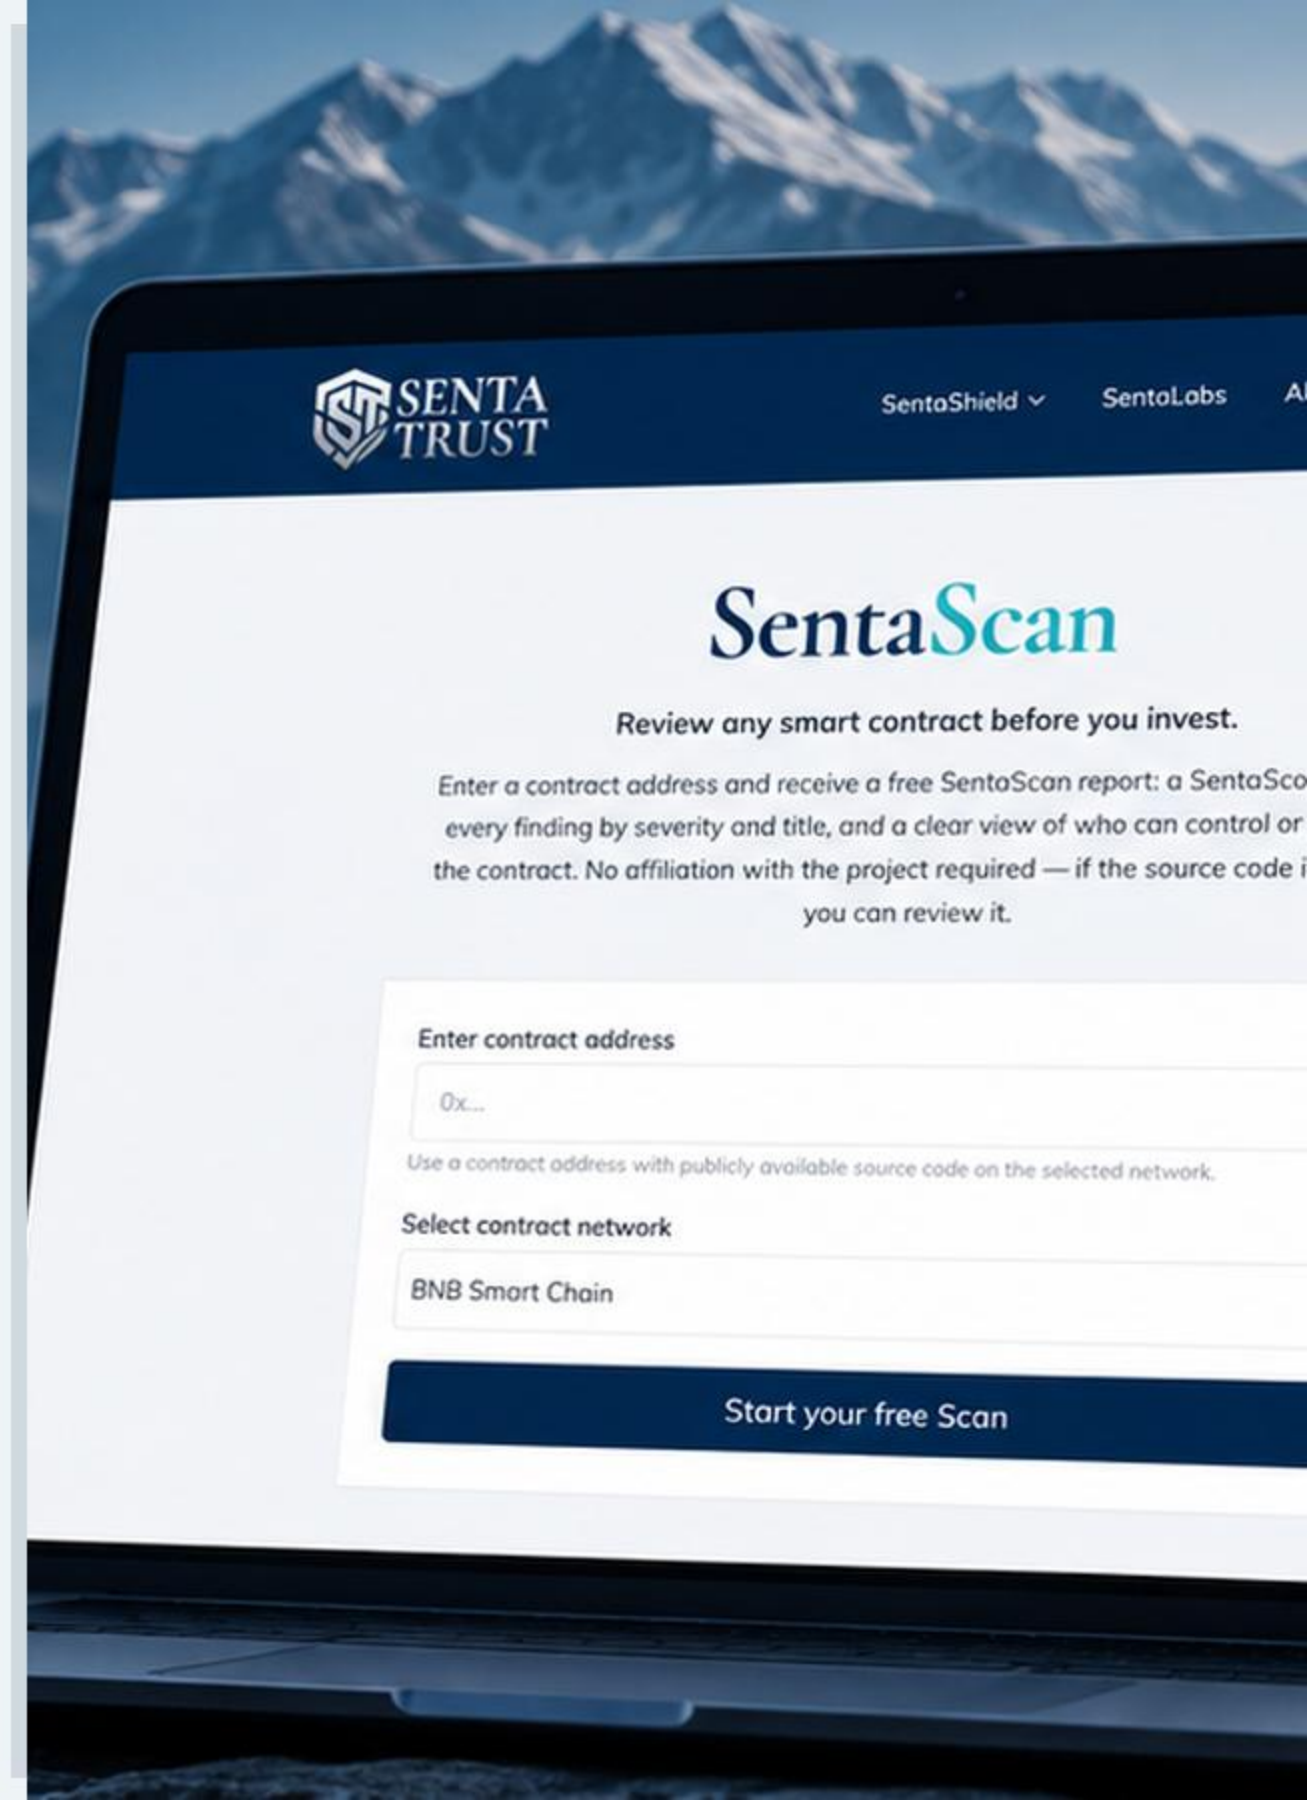

SentaTrust does.

SentaTrust sets the standard for trust in the new business world. We verify the code behind smart contracts—digital agreements that can control money, ownership, payments, and business activity—giving investors, businesses, and partners a clear basis for deciding whether to proceed.

SENTA-2026-000030.

A visible mark of verified work

The foundation is built.

Over two years, the founders have invested their time, capital, and expertise to build SentaTrust: a licensed UAE company, proprietary technology, a complete service, and an international brand.

Fully licensed UAE mainland company

Established in Dubai with the legal and operational foundation to serve international clients.

SentaShield

Independent audit and certification for smart-contract systems. Formal reports, certificates, and public verification.

SentaLabs

The research and verification division behind SentaShield. Proprietary technology, expert review, and continuous security development.

Website and public verification

Every certification creates a public record. Investors, partners, and users can independently check the result.

Built in Dubai. Global by design.

Dubai gives SentaTrust the right base for the next stage:
international capital, talent, infrastructure, partnerships,
and a business-friendly environment.

A global base for a global opportunity

Our vision is the
new reality.

Be part of what
comes next.

Join SentaTrust as an early strategic investor in the company building the trust infrastructure for the blockchain- and AI-driven economy. Participate in the growth and future value of a Dubai-based company built for global scale.
